THE FIVE COLLECTIONS

CASALTO
THE FIVE COLLECTIONS

THE FIVE COLLECTIONS

*“Each collection will take you in a world
where imagination meets travel”*

Casalto was established in 2012 in Brussels by the architect Eric Willemaert. The project is born from a childhood dream mixing stacking games to the love for beautiful material.

Distributed across five collections, Casalto offers tables, lighting and exclusive accessories in handcrafted ceramic, mouth-blown glass, marble and precious metal.

VENDÔME transports you into the world of Haute Couture and more particularly the one of Coco Chanel.

With SAINT-MALO, you will feel the spray of the ocean. Dressed in white and marinière, the collection finds its inspiration in the sea world.

VIENNA takes you into Otto Wagner’s Art Deco through the Viennese secession. Perfect geometry, stripes meet jugenstil artists

With HAVANA, you will dive into the intimate world of lounge bars. Warm and suave atmosphere where you could taste a Caribbean rum.

SOHO is a resolutely masculine collection. Inspired by the world of industry and New York lofts, it will also take you back in time.
